

## Jackson-Milton Sports Physicals

Date: May 17<sup>th</sup>, 2019

Time: We will start at Noon with the district track athletes both males and females. We will then start with 7<sup>th</sup> and 8<sup>th</sup> grade students and then move on to high school students in grades 9 through 11. We will have 6<sup>th</sup> grade students going at 1:30 PM and then return to high school students. Goal is to finish this all up by 3:00 PM and the last group to go will be high school students that drive.

Cost: \$20.00- Cash or Check; checks payable to Jackson-Milton Local Schools

Doctor Performing Physicals: Dr. Andrew Hospodar D.C., M.S. L.Ac.

Doctor Hospodar is certified by the National Chiropractic Board of Sports Physicians

Directions:

1. Please make sure that you fill out all of the documents before hand, which include;
  - a. OHSAA Forms
    - i. Page1
      1. Please make sure to elaborate if you answer "yes" to any question on this page. Dr. Hospodar reserves the right to refuse to give physical if this is not done.
    - ii. Page 2 if student has a disability, page 5 and 6
    - iii. Ohio Department of Health Concussion Info Sheet Signature Page
    - iv. Jackson-Milton Insurance Waiver Form
    - v. Athletic Code of Conduct
    - vi. Risk of Participation
    - vii. JM Emergency Medical Form
    - viii. Lindsay's Law Form

Any questions please contact Athletic Director Kevin Hogue at 330-538-3232 Ex 1218 or Kevin.Hogue@jmlocal.com

THE STUDENT SHALL NOT BE CLEARED TO PARTICIPATE IN INTERSCHOLASTIC ATHLETICS UNTIL THIS FORM HAS BEEN SIGNED AND RETURNED TO THE SCHOOL

OHSAA AUTHORIZATION FORM 2019-2020

I hereby authorize the release and disclosure of the personal health information of \_\_\_\_\_ ("Student"), as described below, to \_\_\_\_\_ ("School").

The information described below may be released to the School principal or assistant principal, athletic director, coach, athletic trainer, physical education teacher, school nurse or other member of the School's administrative staff as necessary to evaluate the Student's eligibility to participate in school sponsored activities, including but not limited to interscholastic sports programs, physical education classes or other classroom activities.

Personal health information of the Student which may be released and disclosed includes records of physical examinations performed to determine the Student's eligibility to participate in school sponsored activities, including but not limited to the Pre-participation Evaluation form or other similar document required by the School prior to determining eligibility of the Student to participate in classroom or other School sponsored activities; records of the evaluation, diagnosis and treatment of injuries which the Student incurred while engaging in school sponsored activities, including but not limited to practice sessions, training and competition; and other records as necessary to determine the Student's physical fitness to participate in school sponsored activities.

The personal health information described above may be released or disclosed to the School by the Student's personal physician or physicians; a physician or other health care professional retained by the School to perform physical examinations to determine the Student's eligibility to participate in certain school sponsored activities or to provide treatment to students injured while participating in such activities, whether or not such physicians or other health care professionals are paid for their services or volunteer their time to the School; or any other EMT, hospital, physician or other health care professional who evaluates, diagnoses or treats an injury or other condition incurred by the student while participating in school sponsored activities.

I understand that the School has requested this authorization to release or disclose the personal health information described above to make certain decisions about the Student's health and ability to participate in certain school sponsored and classroom activities, and that the School is not a health care provider or health plan covered by federal HIPAA privacy regulations, and the information described below may be redisclosed and may not continue to be protected by the federal HIPAA privacy regulations. I also understand that the School is covered under the federal regulations that govern the privacy of educational records, and that the personal health information disclosed under this authorization may be protected by those regulations.

I also understand that health care providers and health plans may not condition the provision of treatment or payment on the signing of this authorization; however, the Student's participation in certain school sponsored activities may be conditioned on the signing of this authorization.

I understand that I may revoke this authorization in writing at any time, except to the extent that action has been taken by a health care provider in reliance on this authorization, by sending a written revocation to the school principal (or designee) whose name and address appears below.

Name of Principal: \_\_\_\_\_

School Address: \_\_\_\_\_

This authorization will expire when the student is no longer enrolled as a student at the school.

**NOTE: IF THE STUDENT IS UNDER 18 YEARS OF AGE, THIS AUTHORIZATION MUST BE SIGNED BY A PARENT OR LEGAL GUARDIAN TO BE VALID. IF THE STUDENT IS 18 YEARS OF AGE OR OVER, THE STUDENT MUST SIGN THIS AUTHORIZATION PERSONALLY.**

Student's Signature \_\_\_\_\_ Birth date of Student, including year \_\_\_\_\_

Name of Student's personal representative, if applicable \_\_\_\_\_

I am the Student's (check one):  Parent  Legal Guardian (documentation must be provided)

Signature of Student's personal representative, if applicable \_\_\_\_\_ Date \_\_\_\_\_

A copy of this signed form has been provided to the student or his/her personal representative

**PREPARTICIPATION PHYSICAL EVALUATION 2019-2020**  
**2019-2020 Ohio High School Athletic Association Eligibility and Authorization Statement**

This document is to be signed by the participant from an OHSAA member school and by the participant's parent.

 I have read, understand and acknowledge receipt of the **OHSAA Student Eligibility Guide and Checklist** <https://www.ohsaa.org/Portals/0/Eligibility/OtherEligibilityDocs/EligibilityGuideHS.pdf> which contains a summary of the eligibility rules of the Ohio High School Athletic Association. I understand that a copy of the *OHSAA Handbook* is on file with the principal and athletic administrator and that I may review it, in its entirety, if I so choose. All OHSAA bylaws and regulations from the *Handbook* are also posted on the OHSAA website at [ohsaa.org](http://ohsaa.org).

 I understand that an OHSAA member school must **adhere to all rules and regulations** that pertain to the interscholastic athletics programs that the school sponsors, but that local rules may be more stringent than OHSAA rules.

 I understand that participation in interscholastic athletics is a **privilege not a right**.

**Student Code of Responsibility**

 As a student athlete, I **understand and accept** the following responsibilities:

 I will **respect the rights and beliefs** of others and will treat others with courtesy and consideration.

 I will be **fully responsible** for my own actions and the consequences of my actions.

 I will **respect the property** of others.

 I will **respect and obey the rules** of my school and laws of my community, state and country.

 I will **show respect to those who are responsible for enforcing the rules** of my school and the laws of my community, state and country.

 I understand that a student whose character or conduct violates the school's Athletic Code or School Code of Responsibility is not in good standing and is ineligible for a period as determined by the principal.

 **Informed Consent** – By its nature, participation in interscholastic athletics includes risk of injury and transmission of infectious disease such as HIV and Hepatitis B. Although serious injuries are not common and the risk of HIV transmission is almost nonexistent in supervised school athletic programs, it is impossible to eliminate all risk. Participants have a responsibility to help reduce that risk. Participants must obey all safety rules, report all physical and hygiene problems to their coaches, follow a proper conditioning program, and inspect their own equipment daily. **PARENTS, GUARDIANS OR STUDENTS WHO MAY NOT WISH TO ACCEPT RISK DESCRIBED IN THIS WARNING SHOULD NOT SIGN THIS FORM. STUDENTS MAY NOT PARTICIPATE IN AN OHSAA-SPONSORED SPORT WITHOUT THE STUDENT'S AND PARENT'S/GUARDIAN'S SIGNATURE.**

 I understand that in the case of **injury or illness requiring treatment by medical personnel and transportation to a health care facility**, that a reasonable attempt will be made to contact the parent or guardian in the case of the student-athlete being a minor, but that, if necessary, the student-athlete will be treated and transported via ambulance to the nearest hospital.

 I **consent to medical treatment** for the student following an injury or illness suffered during practice and/or a contest.

 To enable the OHSAA to determine whether the herein named student is eligible to participate in interscholastic athletics in an OHSAA member school I **consent to the release to the OHSAA any and all portions of school record files**, beginning with seventh grade, of the herein named student, specifically including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s) or guardian(s), residence address of the student, academic work completed, grades received and attendance data.

 I **consent to the OHSAA's use of the herein named student's name, likeness, and athletic-related information** in reports of contests, promotional literature of the Association and other materials and releases related to interscholastic athletics.

 I understand that if I **drop a class, take course work through College Credit Plus, Credit Flexibility or other educational options**, this action could affect compliance with OHSAA academic standards and my eligibility. I **accept full responsibility** for compliance with Bylaw 4-4-1, Scholarship, and the passing five credit standard expressed therein.

 I **understand all concussions are potentially serious** and may result in complications including prolonged brain damage and death if not recognized and managed properly. Further I understand that if my student is removed from a practice or competition due to a suspected concussion, he or she will be unable to return to participation that day. After that day written authorization from a physician (M.D. or D.O.) or an athletic trainer working under the supervision of a physician will be required in order for the student to return to participation.

 I **have read and signed the Ohio Department of Health's Concussion Information Sheet** and have retained a copy for myself.

 **By signing this we acknowledge that we have read the above information and that we consent to the herein named student's participation.**

**\*Must Be Signed Before Physical Examination**

# Ohio Department of Health Concussion Information Sheet

## *For Interscholastic Athletics*

Dear Parent/Guardian and Athletes,

This information sheet is provided to assist you and your child in recognizing the signs and symptoms of a concussion. Every athlete is different and responds to a brain injury differently, so seek medical attention if you suspect your child has a concussion. Once a concussion occurs, it is very important your athlete return to normal activities slowly, so he/she does not do more damage to his/her brain.

### What is a Concussion?

A concussion is an injury to the brain that may be caused by a blow, bump, or jolt to the head. Concussions may also happen after a fall or hit that jars the brain. A blow elsewhere on the body can cause a concussion even if an athlete does not hit his/her head directly. Concussions can range from mild to severe, and athletes can get a concussion even if they are wearing a helmet.

### Signs and Symptoms of a Concussion

Athletes do not have to be "knocked out" to have a concussion. In fact, less than 1 out of 10 concussions result in loss of consciousness. Concussion symptoms can develop right away or up to 48 hours after the injury. Ignoring any signs or symptoms of a concussion puts your child's health at risk!

#### Signs Observed by Parents of Guardians

- ◆ *Appears dazed or stunned.*
- ◆ *Is confused about assignment or position.*
- ◆ *Forgets plays.*
- ◆ *Is unsure of game, score or opponent.*
- ◆ *Moves clumsily.*
- ◆ *Answers questions slowly.*
- ◆ *Loses consciousness (even briefly).*
- ◆ *Shows behavior or personality changes (irritability, sadness, nervousness, feeling more emotional).*
- ◆ *Can't recall events before or after hit or fall.*

#### Symptoms Reported by Athlete

- ◆ *Any headache or "pressure" in head. (How badly it hurts does not matter.)*
- ◆ *Nausea or vomiting.*
- ◆ *Balance problems or dizziness.*
- ◆ *Double or blurry vision.*
- ◆ *Sensitivity to light and/or noise*
- ◆ *Feeling sluggish, hazy, foggy or groggy.*
- ◆ *Concentration or memory problems.*
- ◆ *Confusion.*
- ◆ *Does not "feel right."*
- ◆ *Trouble falling asleep.*
- ◆ *Sleeping more or less than usual.*

### Be Honest

Encourage your athlete to be honest with you, his/her coach and your health care provider about his/her symptoms. Many young athletes get caught up in the moment and/or feel pressured to return to sports before they are ready. It is better to miss one game than the entire season... or risk permanent damage!

### Seek Medical Attention Right Away

Seeking medical attention is an important first step if you suspect or are told your child has a concussion. A qualified health care professional will be able to determine how serious the concussion is and when it is safe for your child to return to sports and other daily activities.

- ◆ *No athlete should return to activity on the same day he/she gets a concussion.*
- ◆ *Athletes should **NEVER** return to practices/games if they still have ANY symptoms.*
- ◆ *Parents and coaches should never pressure any athlete to return to play.*

### The Dangers of Returning Too Soon

Returning to play too early may cause Second Impact Syndrome (SIS) or Post-Concussion Syndrome (PCS). SIS occurs when a second blow to the head happens before an athlete has completely recovered from a concussion. This second impact causes the brain to swell, possibly resulting in brain damage, paralysis, and even death. PCS can occur after a second impact. PCS can result in permanent, long-term concussion symptoms. The risk of SIS and PCS is the reason why no athlete should be allowed to participate in any physical activity before they are cleared by a qualified healthcare professional.

### Recovery

A concussion can affect school, work, and sports. Along with coaches and teachers, the school nurse, athletic trainer, employer, and other school administrators should be aware of the athlete's injury and their roles in helping the child recover.

During the recovery time after a concussion, physical and mental rest are required. A concussion upsets the way the brain normally works and causes it to work longer and harder to complete even simple tasks. Activities that require concentration and focus may make symptoms worse and cause the brain to heal slower. Studies show that children's brains take several weeks to heal following a concussion.

## Returning to Daily Activities

1. Be sure your child gets plenty of rest and enough sleep at night – no late nights. Keep the same bedtime weekdays and weekends.
2. Encourage daytime naps or rest breaks when your child feels tired or worn-out.
3. Limit your child's activities that require a lot of thinking or concentration (including social activities, homework, video games, texting, computer, driving, job-related activities, movies, parties). These activities can slow the brain's recovery.
4. Limit your child's physical activity, especially those activities where another injury or blow to the head may occur.
5. Have your qualified health care professional check your child's symptoms at different times to help guide recovery.

## Returning to Learn (School)

1. Your athlete may need to initially return to school on a limited basis, for example for only half-days, at first. This should be done under the supervision of a qualified health care professional.
2. Inform teacher(s), school counselor or administrator(s) about the injury and symptoms. School personnel should be instructed to watch for:
  - a. Increased problems paying attention.
  - b. Increased problems remembering or learning new information.
  - c. Longer time needed to complete tasks or assignments.
  - d. Greater irritability and decreased ability to cope with stress.
  - e. Symptoms worsen (headache, tiredness) when doing schoolwork.
3. Be sure your child takes multiple breaks during study time and watch for worsening of symptoms.
4. If your child is still having concussion symptoms, he/she may need extra help with school-related activities. As the symptoms decrease during recovery, the extra help or supports can be removed gradually.
5. For more information, please refer to Return to Learn on [the ODH website](#).

## Returning to Play

1. Returning to play is specific for each person, depending on the sport. *Starting 4/26/13, Ohio law requires written permission from a health care provider before an athlete can return to play.* Follow instructions and guidance provided by a health care professional. It is important that you, your child and your child's coach follow these instructions carefully.
2. Your child should NEVER return to play if he/she still has ANY symptoms. (Be sure that your child does not have any symptoms at rest and while doing any physical activity and/or activities that require a lot of thinking or concentration).
3. Ohio law prohibits your child from returning to a game or practice on the same day he/she was removed.
4. Be sure that the athletic trainer, coach and physical education teacher are aware of your child's injury and symptoms.
5. Your athlete should complete a step-by-step exercise-based progression, under the direction of a qualified healthcare professional.
6. A sample activity progression is listed below. Generally, each step should take no less than 24 hours so that your child's full recovery would take about one week once they have no symptoms at rest and with moderate exercise.\*

### Sample Activity Progression\*

**Step 1:** Low levels of non-contact physical activity, provided NO SYMPTOMS return during or after activity. (Examples: walking, light jogging, and easy stationary biking for 20-30 minutes).

**Step 2:** Moderate, non-contact physical activity, provided NO SYMPTOMS return during or after activity. (Examples: moderate jogging, brief sprint running, moderate stationary biking, light calisthenics, and sport-specific drills without contact or collisions for 30-45 minutes).

**Step 3:** Heavy, non-contact physical activity, provided NO SYMPTOMS return during or after activity. (Examples: extensive sprint running, high intensity stationary biking, resistance exercise with machines and free weights, more intense non-contact sports specific drills, agility training and jumping drills for 45-60 minutes).

**Step 4:** Full contact in controlled practice or scrimmage.

**Step 5:** Full contact in game play.

\*If any symptoms occur, the athlete should drop back to the previous step and try to progress again after a 24 hour rest period.

# Ohio Department of Health Concussion Information Sheet

## *For Interscholastic Athletics*

I have read the Ohio Department of Health's Concussion Information Sheet and understand that I have a responsibility to report my/my child's symptoms to coaches, administrators and healthcare provider.

I also understand that I/my child must have no symptoms before return to play can occur.

This form and valid physical forms must be signed and turned to the Athletic Director or Coach before the student will be allowed to practice or participate in any activities during the school year

# MVAC-MAHONING VALLEY ATHLETIC CONFERENCE

Jackson-Milton High School and Middle School is a member of the Mahoning Valley Athletic Conference. The schools in this league have a rich academic and athletic tradition. League champions are currently being contested in all major sports.

## ATHLETIC CODE OF CONDUCT

I have received, read, and agree to adhere to the Jackson-Milton Athletic Code of Conduct and the additional team guidelines given by the coach to all participants in the athletic program. I may or may not agree with these rules and regulations, but I do agree to follow these guidelines as a member of an athletic squad.

Student Signature- \_\_\_\_\_ Date \_\_\_\_\_

Parent Signature- \_\_\_\_\_ Date \_\_\_\_\_

**Notes:** The athletic handbook is located in the forms sections of the JM website. This form must be signed and returned to a coach before any athlete is permitted to participate in pre-season conditioning, practice, scrimmage, or a contest.

## RISK OF PARTICIPATION

Risk in sports is a topic that has received great publicity recently. All human activities, including sports, have a potential for causing injury to individuals. Sports injuries can range from simple cuts and bruises to serious conditions such as fractures and severe sprains, possibly requiring surgery, to catastrophic occurrences which include blinding eye injuries, neck and back injuries resulting in paralysis, and, although rare, death. Proper conditioning, correct techniques, training and well-fitted equipment can greatly reduce your child's risk of injury. The coaches in the Jackson-Milton Local Schools will do our best to prevent, protect, and treat injuries to your son or daughter.

We acknowledge the fact that the risk of injuries detailed above is present in the sports offered in the Jackson-Milton Local Schools. We grant our child permission to assume these risks while participating in these sports. We assume these risks with the understanding that the Jackson-Milton Local Schools coaches will do everything in their power to reduce the injury potential to our child.

**PLEASE SIGN ONLY ONE LINE BELOW INDICATING YOUR WISHES:**

**Part I - To Grant Consent:**

In the event reasonable attempts to contact me have been unsuccessful, I hereby give consent for (1) the administration of any treatment deemed necessary by above named doctor, or, in the event the designated preferred practitioner is not available, by another licensed physician or dentist; and (2) the transfer of the child to any hospital reasonably accessible.

This authorization does not cover major surgery, unless the medical opinions of two other licensed physicians or dentist, concurring in the necessity for such surgery, are obtained prior to the performance of such surgery. Facts concerning the child's history including allergies, medications being taken, and any physical impairments to which a physician should be alerted are listed above.

# Sudden Cardiac Arrest and Lindsay's Law Information for the Youth Athlete and Parent/Guardian

- Lindsay's Law is about Sudden Cardiac Arrest (SCA) in youth athletes. This law went into effect in 2017. SCA is the leading cause of death in student athletes 19 years of age or younger. SCA occurs when the heart suddenly and unexpectedly stops beating. This cuts off blood flow to the brain and other vital organs. SCA is fatal if not treated immediately.
- "Youth" covered under Lindsay's Law are all athletes 19 years of age or younger that wish to practice for or compete in athletic activities organized by a school or youth sports organization.
- Lindsay's Law applies to all public and private schools and all youth sports organizations for athletes aged 19 years or younger whether or not they pay a fee to participate or are sponsored by a business or nonprofit. This includes:
  - 1) All athletic activities including interscholastic athletics, any athletic contest or competition sponsored by or associated with a school
  - 2) All cheerleading, club sports and school affiliated organizations including noncompetitive cheerleading
  - 3) All practices, interschool practices and scrimmages
- Any of these things may cause SCA:
  - 1) Structural heart disease. This may or may not be present from birth
  - 2) Electrical heart disease. This is a problem with the heart's electrical system that controls the heartbeat
  - 3) Situational causes. These may be people with completely normal hearts who are either are hit in the chest or develop a heart infection
- Warning signs in your family that you or your youth athlete may be at high risk of SCA:
  - o A blood relative who suddenly and unexpectedly dies before age 50
  - o Any of the following conditions: cardiomyopathy, long QT syndrome, Marfan syndrome, or other rhythm problems of the heart
- Warning signs of SCA. If any of these things happen with exercise, see your health care professional:
  - Chest pain/discomfort
  - Unexplained fainting/near fainting or dizziness
  - Unexplained tiredness, shortness of breath or difficulty breathing
  - Unusually fast or racing heart beats
- The youth athlete who faints or passes out before, during, or after an athletic activity MUST be removed from the activity. Before returning to the activity, the youth athlete must be seen by a health care professional and cleared in writing.
- If the youth athlete's biological parent, sibling or child has had a SCA, then the youth athlete must be removed from activity. Before returning to the activity, the youth athlete must be seen by a health care professional and cleared in writing.
- Any young athlete with any of these warning signs cannot participate in practices, interschool practices, scrimmages or competition until cleared by a health care professional.

- Other reasons to be seen by a healthcare professional would be a heart murmur, high blood pressure, or prior heart evaluation by a physician.
- Lindsay's Law lists the health care professionals who may evaluate and clear youth athletes. They are a physician (MD or DO), a certified nurse practitioner, a clinical nurse specialist or certified nurse midwife. For school athletes, a physician's assistant or licensed athletic trainer may also clear a student. That person may refer the youth and family to another health care provider for further evaluation. Clearance must be provided in writing to the school or sports official before the athlete can return to the activity.
- Despite everyone's best efforts, sometimes a young athlete will experience SCA. If you have had CPR training, you may know the term "Chain of Survival." The Chain of Survival helps anyone survive SCA.
- Using an Automated External Defibrillator (AED) can save the life of a child with SCA. Depending on where a young athlete is during an activity, there may or may not be an AED close by. Many, but not all, schools have AEDs. The AEDs may be near the athletic facilities, or they may be close to the school office. Look around at a sporting event to see if you see one. If you are involved in community sports, look around to see if there is an AED nearby.
- If you witness a person experiencing a SCA: First, remain calm. Follow the links in the Chain of Survival:
  - ❖ Link 1: Early recognition
    - Assess child for responsiveness. Does the child answer if you call his/her name?
    - If no, then attempt to assess pulse. If no pulse is felt or if you are unsure, call for help "someone dial 911"
  - ❖ Link 2: Early CPR
    - Begin CPR immediately
  - ❖ Link 3: Early defibrillation (which is the use of an AED)
    - If an AED is available, send someone to get it immediately. Turn it on, attach it to the child and follow the instructions
    - If an AED is not available, continue CPR until EMS arrives
  - ❖ Link 4: Early advanced life support and cardiovascular care
    - Continue CPR until EMS arrives
- Lindsay's Law requires both the youth athlete and parent/guardian to acknowledge receipt of information about Sudden Cardiac Arrest by signing a form.

# Sudden Cardiac Arrest and Lindsay's Law Parent/Athlete Signature Form

**What is Lindsay's Law?** Lindsay's Law is about Sudden Cardiac Arrest (SCA) in youth athletes. It covers all athletes 19 years or younger who practice for or compete in athletic activities. Activities may be organized by a school or youth sports organization.

**Which youth athletic activities are included in Lindsay's law?**

- Athletics at all schools in Ohio (public and non-public)
- Any athletic contest or competition sponsored by or associated with a school
- All interscholastic athletics, including all practices, interschool practices and scrimmages
- All youth sports organizations
- All cheerleading and club sports, including noncompetitive cheerleading

**What is SCA?** SCA is when the heart stops beating suddenly and unexpectedly. This cuts off blood flow to the brain and other vital organs. People with SCA will die if not treated immediately. SCA can be caused by 1) a structural issue with the heart, OR 2) an heart electrical problem which controls the heartbeat, OR 3) a situation such as a person who is hit in the chest or a gets a heart infection.

**What is a warning sign for SCA?** If a family member died suddenly before age 50, or a family member has cardiomyopathy, long QT syndrome, Marfan syndrome or other rhythm problems of the heart.

**What symptoms are a warning sign of SCA?** A young athlete may have these things with exercise:

- Chest pain/discomfort
- Unexplained fainting/near fainting or dizziness
- Unexplained tiredness, shortness of breath or difficulty breathing
- Unusually fast or racing heart beats

**What happens if an athlete experiences syncope or fainting before, during or after a practice, scrimmage, or competitive play?** The coach **MUST** remove the youth athlete from activity immediately. The youth athlete **MUST** be seen and cleared by a health care provider before returning to activity. This written clearance must be shared with a school or sports official.

**What happens if an athlete experiences any other warning signs of SCA?** The youth athlete should be seen by a health care professional.

**Who can evaluate and clear youth athletes?** A physician (MD or DO), a certified nurse practitioner, a clinical nurse specialist, certified nurse midwife. For school athletes, a physician's assistant or licensed athletic trainer may also clear a student. That person may refer the youth to another health care provider for further evaluation.

**What is needed for the youth athlete to return to the activity?** There must be clearance from the health care provider in writing. This must be given to the coach and school or sports official before return to activity.

All youth athletes and their parents/guardians must review information about Sudden Cardiac Arrest, then sign and return this form.
